

Work of Art

You know that whole your-face-is-a-canvas metaphor? We may have laid it on you once or twice. Well, the makeup makers are getting very literal about it, with tubes of intense pigments and eyeliners that are straight-up quills. Tonight's look might just be your masterpiece.

HIGH-TECH HAIR

The hottest skin-care trends have gone to our heads.

Micellar water...that clarifies. The micellar surfactants in DevaCurl Micellar Water Cleansing Serum and Redken Micellar Clean-Touch Shampoo surround and remove product buildup, dirt, and oil in your hair, says cosmetic chemist Ni'Kita Wilson. Use weekly in place of a clarifying shampoo, whose sulfates can sap moisture from already-dry curly hair.

In-shower lotion...that styles. Just like wet-skin moisturizers, Living Proof Perfect Hair Day In-Shower Styler leaves behind water-resistant resins, so you lock out humidity and lock in your natural kinks and waves before you step out of the shower.

Foam...that dry-cleans. Drybar Detox Whipped Dry Shampoo Foam and Ouai Dry Shampoo Foam take oil-absorbing particles (volcanic ash and minerals), combine them with alcohol, and shoot them through with air. The results: airy mousses that spread easily over your greasy roots, then dry quickly. —JESA MARIE CALAOR
